**\*Portfolio Category** - A submission of up to 10 images (five minimum) built around a common theme related to nature and conservation. Themes could be broad and general, such as documenting a wildlife behavior or conservation issue, or as specific as a series capturing a particular animal, plant or wildlife characteristic. Please do not enter an unrelated assortment of your best pictures (such as "mammals") as your submission should be built around a unifying theme.

Consider these criteria:

- Are each of your images individually strong?
- Does your collection of images feature a unifying theme?
- Is the theme carried throughout in the portfolio in a consistent way?
- How does your work take a unique approach to the subject matter?
